INTRODUCTION

The annual Criminal Justice Profile series summarizes and combines data pertaining to California's criminal justice system. Separate publications are available for each county and the state. Much of the data presented in the Statewide Profile supplements the Bureau of Criminal Statistics' (BCS) annual Crime and Delinquency publication, which is available upon request. Data not provided in these publications may be available from BCS by special request.

Each Profile consists of two sections. The first section displays annual criminal justice data in tabular form for 1973 through 1982. The second section contains reference tables displaying selected data for 1982.

CRIMINAL JUSTICE DATA

Trend data in the Profile are reported to BCS by state and local agencies and have been summarized for each year. Individual county or statewide totals for selected criminal justice activities are provided in tabular form in this section. Tables are provided on crimes, arrests, processes, personnel, expenditures, and correctional actions.

Where used, population data are shown in hundreds and can be converted to original numbers by adding two zeros. For example, the state population for 1982 is shown as 247,240, which converts to a population total of 24,724,000.

REFERENCE TABLES

The individual reference tables in this section cover data for 1982 on crimes reported, adult and juvenile arrests, prosecution, and adult and juvenile probation.

Each county publication contains jurisdictional data. The statewide publication relates to California counties.

CRIMINAL JUSTICE DATA FOOTNOTES

1 Possession of limited quantities of marijuana was changed from a felony to a misdemeanor by legislation effective January 1, 1976.

2 Due to a 1982 law change, arrests for driving under the influence of a drug have been removed from this category and included in the "driving under the influence" category.

3 Caseload count taken December 31 of each year.

4 Adult Probation: Removals exclude the "all other" category, which includes deceased, transferred to another county, sentence vacated, and appeal approved. Lower court probation removals for 1976 include estimated data for Alameda County based on the 1977 proportions reported. Terminations and violations are shown both numerically and as a percent of total removals.

Juvenile Probation: Prior to 1982, initial referrals with prior status of 654 W&I were counted as new referrals. In 1982 and subsequent years, these will be counted as subsequent petitions filed. Subsequent petitions filed include all cases dismissed, transferred, or remanded to adult court.

5 Previously published court data through 1974 are not comparable with data for 1975 and subsequent years.

6 Previously published superior court filings data through 1974 are not comparable with data for 1975 and subsequent years.

7 Totals have been rounded and are shown in thousands. Expenditures include salaries and employee benefits, services, and supplies. Building construction is not included. Prior to 1976, family support was not fully reported by prosecution. Expenditure and personnel data are not comparable with each other.

8 Includes costs for Juvenile Justice Commission, Delinquency Prevention Commission, jurors, interpreters, examination of the insane, juvenile court referees, jury commissioners, and other court-related expenses.

9 One day count of personnel taken June 30 with the exception of police departments, sheriffs' departments, California Highway Patrol, and University of California Police (includes state colleges) which were taken October 31. In 1983, probation personnel counts were taken January 3. The dates varied in previous years. Personnel counts for Lawrence Radiation Laboratory were not available prior to 1980. Personnel and expenditure data are not comparable with each other.

10 Counts for county and city jails and camps and juvenile nonsecure and secure facilities taken the fourth Thursday in September of each year. Counts for active adult and juvenile probation caseload and juvenile halls, camps, ranches, homes, and schools taken December 31 of each year.

11 Resident population is by county of operation for 1973. Resident population is by county of wardship for 1974 through 1977. Beginning in 1978, data are shown as county probation detention, nonsecure and secure facility counts.

Notes: To maintain consistency with prior years' data, the arson crimes reported in 1980, 1981, and 1982 are excluded from the FBI Crime Index trend data (page 5), but 1982 arson crimes reported are included in the reference table (page 19).

Rates on Seven Major Offenses, clearances, and arrests are not computed where population is less than 100,000.

Rates may not balance because of rounding.

Percents may not total 100.0 because of rounding.

Percent distributions are not calculated when the total number upon which those percents are based is less than 50. This does not apply to clearance rates on the Seven Major Offenses.

KNOWN DATA LIMITATIONS, 1982

ARRESTS

- Race/ethnic data must be considered in light of the subjectivity of the labeling process and recent classification changes, such as those of the U.S. Bureau of the Census (1980).

DISPOSITIONS OF ADULT FELONY ARRESTS AS REPORTED BY THE OFFENDER-BASED TRANSACTION STATISTICS SYSTEM

- There is an important difference between arrests compiled through the Bureau of Criminal Statistics (BCS) arrest reporting system and Offender-Based Transaction Statistics (OBTS) data on the dispositions of adult felony arrests. Arrest data, as reported on the Monthly Arrest and Citation Register, are based on the year the arrest occurred. OBTS data pertain to the year of final disposition regardless of when the felony arrest occurred, and may be reported a year or more after the actual arrest was made.
- OBTS data do not reflect the total number of adult felony arrests or the total number of dispositions at any particular level of the criminal justice system during a given disposition year. It is estimated that, in 1982, OBTS reports were received by the Department of Justice (DOJ) for approximately 70 percent of the total adult felony arrests which received a final disposition during the calendar year. Despite underreporting, those dispositions which were received generally describe the annual statewide processing of adult felony arrestees through California's criminal justice system. However, county and local data should be used with caution since the extent of underreporting may vary between jurisdictions and from year to year.
- In cases where an individual is arrested and charged with multiple offenses, the OBTS system records only the most serious offense at both the time of arrest and the point of conviction. The seriousness of the offense is based on the severity of possible punishment.
- Because of a change in reporting procedures, type of trial (guilty plea, jury trial, court trial, and transcript trial) is not available for 1982 as for the years 1975–1981.
- OBTS data on commitments to state institutions from lower and superior courts may vary from data compiled and reported by other state agencies because of differences in the data collection systems. For example, the California Department of Corrections (CDC) counts the number of defendants actually received by CDC institutions (e.g., prison) even though some may have been committed from one or more counties. The OBTS system, on the other hand, counts each commitment. This and underreporting account for the differences between OBTS counts and statistics generated by other state agencies.
- All arrests made in correctional institutions (e.g., San Quentin, Soledad, Susanville, etc.), where a disposition was reported to DOJ, have been deleted from the county data, and grouped separately for statistical reporting purposes. Institutional arrest dispositions are included in all statewide reports. In 1982, and future years, all institutional arrest dispositions will be deleted from county statistics and reported separately.

ADULT PROBATION

- The data include adults placed on supervised probation only.
- Persons are counted once for each jurisdiction. Thus, data include original grants of probation and do not include subsequent grants of probation to persons already under probation supervision ordered by the same level court in the same county. Also, the probationers under jurisdiction of both superior and lower courts and any who are jurisdictional cases of more than one county are counted more than one time in statewide totals.
- The sources of data are county probation departments' monthly reports of summary data.

JUVENILE PROBATION

- In 1982, the new juvenile justice reporting system included 54 counties. Alameda, Los Angeles, San Diego, and Santa Clara counties are still reporting in the old format.
- In cases where a juvenile has multiple petitions filed for more than one offense, only the petition with the most serious offense is recorded. This accounts for the differences between Bureau of Criminal Statistics counts and the statistics generated by the Administrative Office of the Courts, which counts the number of petitions processed.
